

## Call for Abstracts

2024 International Multiple Sulfatase Deficiency Scientific and Family Conference

**When:** August 1-3, 2024

**Where:** Philadelphia, Pennsylvania, USA

**What:** The United MSD Foundation with its co-host Children's Hospital of Philadelphia proudly announces the 2024 International Multiple Sulfatase Deficiency Scientific and Family Conference. Families affected by MSD and lead researchers and providers from around the world will gather in Philadelphia to discuss the latest research advancements in the field and plan for future endeavors.

We are inviting providers, researchers, junior investigators, medical students, and graduate students to submit an abstract for this upcoming conference. We request submissions showcasing programs, studies, innovations, and/or initiatives revolving around the care and treatment of individuals with Multiple Sulfatase Deficiency (MSD).

*Travel compensation may be available for those outside of the Greater Philadelphia area.*

**Submission Deadline:** Friday, February 2, 2024

### Submission Guidelines

- All abstracts must be submitted via the Google Form below before the deadline.
- Only a complete submission is eligible for review; ensure that a completed abstract is evident in your submission.
- A confirmation email will be sent to the email provided for the primary author once the abstract has been fully submitted.
- Primary Authors are allowed a maximum of two (2) submissions per conference
- Abstract submissions that are incomplete after the submission deadline will not be eligible for presentation nor will they be considered for review.
- Submissions must include the abstract title, not exceed a 500-word description, include one (1) learner outcome, and list the primary author's contact information (full name, affiliation, position or level of education, and email address).
- The primary author presenting should be first in the list of authors. The primary author will be the point of contact for all communication with the United MSD Foundation.
- Abstracts should include background, methods, and other pertinent headings.
- Abstracts may highlight original research, quality improvement projects, evidence-based practice, case reviews, or programmatic innovations. The formatting of the abstract should be consistent with the type of project being presented.
